**Six Fois invites you on
a brief yet captivating
journey into the world
of Art Deco.**

At its core lies the hexagon – a precise, geometric form that flows effortlessly into subtle asymmetry. This seamless transition infuses the design with both energy and elegance. Its slender silhouette is enhanced by a ribbed surface that not only feels inviting to the touch, but also comes alive in the presence of light. Depending on the angle of incidence, the structure reveals ever-changing reflections and shadows – a dynamic play of form, texture, and brilliance.

◆ JOLIE products

Jolie embodies charm, elegance, ambiance and character for your door, window, kitchen, furniture and bathroom. Architects and designers turn to Jolie's architectural hardware to create an exclusive look for each house, villa, mansion, apartment, hotel or any other project.

'knobs and handles
must be complementary,
not dominant ...!'

Our collection by Roel Vandebeek

"As a designer, I always want to be engaged with my client's philosophy. When I met Jolie, I immediately felt right. That is because Jolie is unique. The way they sand-cast brass and then give it their specific finish, that's a level of excellence. Stylish creations, durable, 'timeless' and with a lot of charm too.

This fits my designs for Jolie perfectly, they really align, with the right proportions, practical, but also perspective, value, emotion and character."
